

**10th Global RCE Conference  
Yogyakarta, Indonesia**

**Session 2: Field Visit Orientation**

11:00-12:00, Wednesday, 23 November 2016

Breakout Group 3: Nglanggeran, PIAT Berbah

Moderator: Philip Vaughter (UNU-IAS)

- An ecotourism village in Nglanggeran, Gunung Kidul, Yogyakarta, Prof. Baiquni
- An integrated farming system model in Pusat Inovasi AgroTeknologi Brebah, Yogyakarta, Dr. Bambang Suhartanto & Dr. Chandra Purnomo

**Key Points**

- ABC Partnerships are critical (Academic, Bureaucracy, and Community)
- 3C Partnerships are also critical (Corporations, Cooperatives, & Civil Society)
- Keys to success
  - Intention to actually help people and planet
  - Involve all people and components in a community when working with one
  - Divide roles so specializations that exist within the communication are utilized to maximum extent
  - Take opportunities to develop when presented
- Challenges:
  - Lack of knowledge in general public about existence of sustainability challenges and if know, how to contact them
  - Not knowing how to measure capacity of systems
  - Lack of communications
  - Lack of promotion of existing projects
