

The 2019 Global Host City of  
World Environment Day

# THE 12<sup>th</sup> RCE ASIA- PACIFIC REGIONAL MEETING

HANGZHOU, CHINA

June 4-6, 2019

## CONFERENCE VENUE

Hangzhou Low-carbon Science & Technology Museum, China  
1888 Jiangnan Road, Binjiang Dist, Hangzhou, China

It is the world's first low-carbon science and technology museum. The museum is located in the Hangzhou Binjiang District. With a construction area of 16,718 square meters and total building area of 33,656 square meters, this museum opened to the public in the first half of 2011. The main exhibition hall of this science and technology museum consists of five sections – the world of carbon, global warming, low-carbon city, low-carbon living and low-carbon future. The science and technology museum will also establish a special scientific amusement park for children, providing them with many little interactive games in order to give children an idea of low-carbon living from their childhood.

# Tentative SCHEDULE (as of 27 May 2019)
