

## The 12<sup>th</sup> Global RCE Conference:

‘Achieving the Sustainable Development Goals: action through learning in a time of global crises’

16-18 November 2021

There has never been a more urgent need for the combined skills and knowledge of the global RCE Network.

Our world is at a crossroads. The climate and associated biodiversity crises, human rights abuses, and political inertia are now evident across the planet.

This conference will:

- Enable and sustain collaborative conversations across the RCE Network
- Share and celebrate good practice regarding action through learning from across the RCE network.
- Explore, beyond COP26, how to strengthen action on the UNESCO ESD for 2030 agenda in the context of the UN SDGs

### Conference structure

- Over the three days of the Conference, we will explore the key theme of ‘*Achieving the Sustainable Development Goals: action through learning in a time of global crises*’.
- Each of the three days will focus on a separate sub-theme. Together, these sub-themes will provide an opportunity for holistic consideration of the affective, cognitive and social/behavioural dimensions of Education for Sustainable Development.

- These sub-themes are:

**Day 1: ‘Hearts’:** What kind of world do we want? How do we engage hearts and minds?

**Day 2: ‘Heads’:** Visioning, thinking and reflecting: planning for action on Education for Sustainable Development and the Sustainable Development Goals

**Day 3: ‘Hands’:** Making it happen: taking action on Education for Sustainable Development and the Sustainable Development Goals.

## 16 November
