Feedback from Participants

Kirkpatric Level 1 Evaluation

There were 9 quantitative questions assessing the feedback of participants on the workshop generally, with specific items on facilitators, venue and materials. Majority of the participants, 96% (n=24) rate the items assessed with high rating i.e. 3 or 4. The details of each items as presented is the table below;

Question	Tidak Setuju	Setuju	Sangat Setuju
1. Saya mempelajari ilmu baharu dari program ini.		32%(n=8)	68% (n=17)
2. Fasilitator bersedia dan teratur dalam penyampaian.		28% (n=7)	72% (n=18)
3. Saya digalakkan untuk mengambil bahagian dalam perbincangan.		36%(n=9)	64% (n=16)
4. Fasilitator memberi ruang dan peluang kepada peserta untuk pertanyaan dan perbincangan.		28% (n=7)	72% (n=18)
5. Kesungguhan dan semangat fasilitator berjaya menarik minat saya dari awal ke akhir sesi.		32%(n=8)	68% (n=17)
6. Contoh yang diberikan membantu saya memahami perkara yang dibincangkan.		48% (n=12)	52% (n=13)
7. Keadaan persekitaran kondusif untuk latihan dan pembelajaran.	4% (n=1)	44% (n=11)	52% (n=13)
8. Skop material kursus		44%	56% (n=)

bersesuaian dengan keperluan saya.		(n=11)	14
9. Material yang disediakan berguna untuk saya.		40% (n=10)	60% (n=15)

The evaluation form also includes qualitative components with 3 items assessing on which slot of the programme the participants find most and least beneficial, and their suggestions for improvement.

60% (n=15) finds the discussion on issues and solution slots to be most beneficial to them, while others stated that Introduction to SDG, Snake & Ladder to be most beneficial. As for the least beneficial, 96% (n=24) states that there is none i.e all slots are beneficial. However, one (1) participant stated Snake & ladder game as least beneficial.

As for the suggestion for improvements, there were suggestions to prolong the duration of training, to involve more agencies in the training, to add more games and more group sessions.

The details of individual response is available in the link below;

Kirkpatric Level 2

We conducted the Pre-test on knowledge on SDG during the Introduction slot and Post-test using the same questionnaire during the Last slot before the adjournment of the workshop.

The result as follow;

The questionnaire consists of six (6) items, three (3) True False items, two (2) Multiple Choice questions, and one(1) short answer item. The participants were scored based on the correct or wrong answer. For each correct answer, participants will score one (1). The maximum possible score is six (6) while the minimum is zero (0). The list of the six items in the questionnaire is available in Appendix IV.

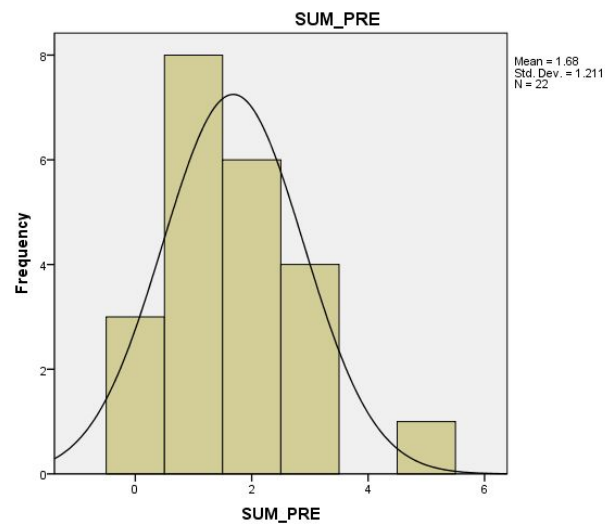

Out of the total 25 participants, three (3) were excluded from analysis due to incomplete pre or post test. The number of valid questionnaires is twenty-two (N=22).

The pre-test shows a Mean Score of 1.67 (SD = 1.21) among the 22 participants, with 5 as the maximum score and 0 as the minimum

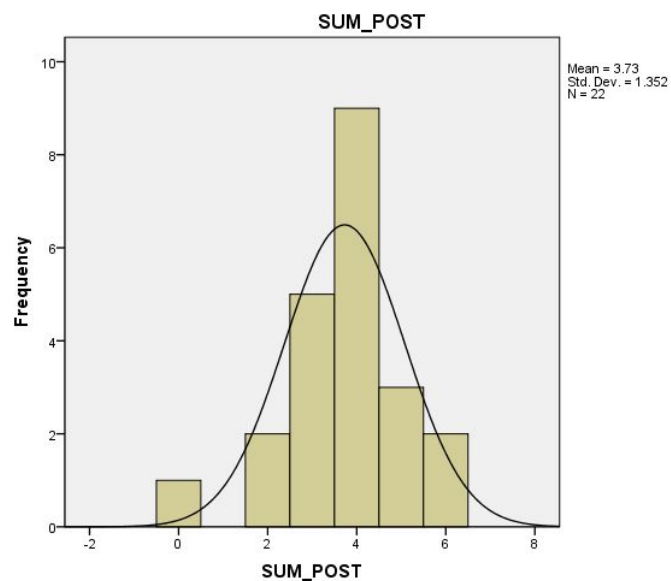

score. 36.36% (n=8) scores 1, 27.27% (n=6) scores 2, 18.18% (n=4) scores 3, 13.67% (n=3) scores 0 and 4.54% (n=1) scores 5.

The post-test shows a Mean Score of 3.73 (SD= 1.35) among the 22 participants, with 6 as the maximum score and 0 as minimum score. 40.9% (n=9) scores 4, 22.72% (n=5) scores 3, 13.63% (n=3) scores 5, 9.09%(n=2) scores 6 and 2, and 4.54% (n=1) scores 0.

The graph for both pre-test and post-test as illustrated below;

Pre-test

Post-test

A wilcoxon-signed ranks test was conducted to measure the difference in the score of pre and post-test as $N < 30$.

A Wilcoxon Signed-ranks test indicated that score of post-test is statistically significantly higher than pre-test , $Z= 4.021$, $p<0.001$. In conclusion, there was an increase in the knowledge on SDG after the completion of the workshop. The result is illustrated below;

		Ranks

Targets Achieved

Number of Participants:
-13/9/2020: 15
-14/9/2020:14

The objectives of this workshop are to introduce SDG and enhance the understanding of SDG among government officers, NGOs and community representatives, which are considered achieved through the activities conducted. This is illustrated in the pre-post test which shows a significant increase in the score of questionnaire on SDG knowledge after completion of the workshop.

Concluding Remarks and Suggestions

The workshop was conducted successfully despite a limited number of participants for both days. From the perspectives of organizers, it is proven that if push for better understanding, the community will buy-in for solutions agreed for the constituency. Participation and engagement from attendees is encouraging despite coming from various backgrounds. This workshop could be further improved if we managed to get more participants especially from government agencies. It is worth mentioning that Members of Parliament's office need to be seriously involved in making sure of the success of the projects.

All in all, this workshop achieved its targeted objectives in serving as introductory course for the understanding of the general concept of Sustainable Development Goals, as well as assisting participants in identifying how it is related to their position or role in society.
