Dear Madam Zarinah Jan Binti Yusof Khan,

It has been a great pleasure for the Turkish Embassy in Kuala Lumpur, to involve in the Cat Sheltering Project of The International Islamic University Malaysia (IIUM), as a partner. Being the first university in Malaysia to develop such a great effort, we are glad to share our know-how in Turkey and to develop some collaboration schemes among Malaysian and Turkish institutions. Turkey has been well-established some protection and nurturing measures for abandoned cats and dogs. Moreover, we have been implementing these through various NGOs, municipalities, and universities. We have always believed the volunteer student club of Abu Hurairah Club IIUM under your guidance and mediation will be the perfect partner to collaborate on such a project.

It is our honor to acknowledge we, as a stakeholder, take place in this project. We strongly believe that these efforts will soon lead to great outcomes and the impacts will disseminate to the whole of Malaysia.

Hope we can prolong this partnership and achieve sustainable results together.

Kind regards,

BEGUM SAHIN
Tourism & Culture Counsellor

Salam Madam SOYSAL

The International Islamic University Malaysia (IIUM) has made history as the first university in the country to receive an International Green Gown Award for the 2020 Best Sustainable Institution category. The award is given to universities from around the world in recognition of the efforts in developing sustainability in their own countries and having positive impacts on the well-being of local communities.

The Global RCE (Regional Center for Excellence) Service Centre at the United Nations University Institute for the Advanced Study of Sustainability (UNU-IAS) announces a call for nominations for the 9th

annual RCE Awards. RCEs are encouraged to nominate one or more of their ESD projects for the award.

As such, the Abu Hurairah Club IIUM would like to participate as one of the nominees and showcase our efforts and our stakeholders contributions towards establishing the construction of the Cat Shelter on our IIUM campus as well as successfully carrying out awareness programmes related to animal wellbeing, cat neutering programmes, adoption programmes, webinar on animal-assisted therapy and student activities on animal wellbeing in line with the sustainability development goals (SDG)

We would like acknowledge your participation in this endeavor as one of our stakeholders and collaborators who have assisted us in funding, manpower, advise and for future collaborations. For that, we need your consent to allow us to mention your company's name in the application form.

Please reply to this email by typing yes or you may share a few words to show your enthusiasm working with us.

Thank you and have a wonderful week ahead.

Warm regards
