Contestant Feedbacks

Every living thing is a design & creation of God, we need to take care & protect it from extinction to enable future generations to appreciate it.

Crista Vila Ronny

People tend to not care about what they have until it’sget damaged. If we work together hard enough, we have a chance to change the way of sustainability in ocean.

Shalimar Sultan

We must protect our ocean as if our lives depend upon it, because they do.

Mercilinda Thanancis
This artwork competition is to make people see in simple terms of what is killing the next generation for the cause of this global warming...

Contestant Feedbacks

After the industrial revolution, the sea was polluted and Marine life could not live in the polluted sea. We need to protect the oceans and the habitats for Marine life...

Phoebe Wong Yun Ting

Biodiversity will colour a balanced ecosystem... Together we need to preserve the diversity of the ocean so that the beauty of life in it is preserved and beneficial to all human beings. The balance of well-preserved ecosystems makes the country full of valuable treasures. Protect marine life so that future generations will know them, understand their lives and learn their needs...
