

The 14th Asia-Pacific RCE Meeting

19-21 July 2022

Kuala Lumpur, Malaysia, Hosted by RCE Greater Gombak

'Empowering Local Wisdom for Education for Sustainable Development'

Programme Schedule

(as of 17 July 2022)

- **Overview:** Countries in the Asia-Pacific region traditionally have their respective rich history and cultures around sustainability shaped by indigenous knowledge. Greater appreciation, acceptance, and participation in sustainable development agendas could be encouraged among people by recognising local concepts of sustainability and connecting the local practices in this matter. The reinforcement of the values in the Asia-Pacific region, especially its distinct identity in spirituality, ethics, communal activities, etc. would create a holistic, compatible, and appropriate approach to sustainable development involving multi-stakeholders such as the education sector, community members, industries/business, and the government sector.
- **Date:** 19-21 July 2022
- **Main Venue:** International Islamic University Malaysia, Gombak, Kuala Lumpur, Malaysia
- **Modality:** The Opening and Closing sessions and Sessions 1, 2, 3 & 4 will be held in a hybrid mode. Other parts of the programmes will be limited to in-person participation.
