

RCE middle Albania participated in the Bonn Conference on Global Transformations, 12-13 May 2015, in Germany. The conference stressed the necessity of interactions and activations of platforms, for including sustainability in Post-2015 Agenda, stressing the fact the development goals have to be named Sustainability goals. This initiative was supported by Sustainable Development Solutions Network DESD and United Nations University in Bonn UNU-EHS. "From Politics to Implementation" was elaborated through different angles where ESD after the DESD decade appears to be not in a very clear position to be linked to Post-2015 Agenda.
