**Name of program**

The following titles will appear on the Western Australian Statement of Student Achievement (WASSA)

UNAA Global Citizenship and Sustainability Program Unit 1: Global Goals and the Local Community
UNAA Global Citizenship and Sustainability Program Unit 2: Global Goals and Australian Regions
UNAA Global Citizenship and Sustainability Program Unit 3: Global Goals and the Indo-Pacific
UNAA Global Citizenship and Sustainability Program Unit 4: Global Citizenship and Sustainable Earth

**Description of program**

Based on the UNESCO model for Global Citizenship Education and the UN 2030 Sustainable Development Goals (commonly termed Global Goals), students apply General Capabilities to plan for the planet and implement projects at the local, regional or global level. Students develop understanding of the 17 Goals and global interconnections, identify a problem to address, design and implement solutions. Challenge-based learning pedagogy requires students working in teams to define real-world problems for sustainability, devise and implement authentic solutions. Throughout the process, students use a digital portfolio to record evidence of critical and creative thinking, personal and social capability, intercultural and ethical understandings.

- Four units designed for flexible delivery.
- Students integrate Humanities (geography, civics and citizenship, economics and business), enterprise and project management skills and STEM understandings to solve problems at local, Australian regional, Indo-Pacific regional and global scales.
- In each unit, students work in teams to implement actions contributing to the Global Goals.

**Average learning time**

Four semester units each a minimum of 60 hours, typically at least 30 hours of classroom or face to face instruction and 30 hours private study/homework

**Participant profile**

Integrated challenge-based learning suited to Year 10, 11 and 12 students with a wide range of dominant learning styles.
There are no pre-requisites. Key attributes required for students to successfully undertake this program will be:

- student interest in planning for the future, sustainable development
- student capacity for self-directed, collaborative learning
- student capacity for challenge-based learning

**Cost**

Estimate the costs associated with the delivery or certification of this program.

**Flexible delivery**

Digital based learning

Estimated cost of $11 per student per unit (UNAAWA Global Citizenship School members) to cover administration, certification and quality assurance costs. UNAAWA will exercise its discretion to consider applications to renegotiate this cost to ensure that no student is prevented from undertaking the program.

**Rationale**

UNAAWA has gained endorsement of this program in order to:

- Promote integrated, applied learning based on the Sustainable Development Goals
- Empower youth voice and action in planning process – global citizenship
- Promote the UNESCO Global Citizenship Education model – the basis for PISA testing of **Global Competence** from 2018
- Contribute to Australia's achievement of Goal 4 Quality Education, Target 4.7:

  By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture’s contribution to sustainable development.

**Learning outcomes**

The key learning outcomes of this program are:

1. Learners acquire knowledge and understandings of local, national and global issues and the interconnectedness and interdependency of different countries and populations
2. Learners develop skills for critical thinking and analysis.
3. Learners experience a sense of belonging to a common humanity, sharing values and responsibilities based on human rights.
4. Learners develop attitudes of empathy, solidarity and respect for differences and diversity.
5. Learners act effectively at local, national and global levels for a more peaceful and sustainable world.
6. Learners develop motivation and willingness to take necessary actions.

Source: **UNESCO Model for Global Citizenship Education**

**Learning and teaching program**

See attached program. Note there are four discrete units in the program. Students may complete one, two, three or four of the units and in any sequence. Each unit has a common design; however, each is differentiated by the context of learning (from local to global). This hierarchy of contexts provides differing learning challenges. It is advantageous, but not essential, for students to move through the hierarchy from local to global. The common design of the units facilitates multi-unit delivery (differentiated learning) in a single class group.
Assessment
See attached assessment outline

Certification evidence
See attached statement and certificate

Minimum requirements for the program to be successfully completed: (This may include attendance, assessment tasks and/or performance)
Students satisfactorily complete all assessment tasks included in the outline.

Achievement descriptors
List the words that are used to describe achievement in the program?
High Distinction [HD]
Distinction [D]
Credit [C]
Not Yet Achieved [N]
Withdrawn [W]
Note: It is understood that for the purposes of recording achievement with SCASA the first three categories will be combined as Achieved.

Program structure and delivery strategy
Schools determine the delivery strategy most appropriate for the context. The Program may be delivered during normal school hours or after school hours, spread over a number of weeks or more, for individuals, small numbers or larger groups and classes. In all cases the program is delivered by school personnel.

Personnel
Identify the personnel who will be delivering this program.

Note: If required, personnel working with children must have a current Working with Children Check. For comprehensive information on the Working with Children check, go to [www.checkwwc.wa.gov.au](http://www.checkwwc.wa.gov.au)

Resource requirements

| IT facilities  | No specialist equipment required |
The Provider ensures the authenticity of certification through controlled use of UNAAWA signature and logo.

Record keeping

UNAAWA will gather and permanently retain the following records:
- School name
- Teacher contact details
- Year of completion of unit
- Student name and year level
- Units achieved
- Level of achievement

Program evaluation

UNAAWA evaluates its school programs annually.
The process is led by the School Programs Coordinator reporting to the Education Reference Group and Executive Committee. The Education Reference Group includes key stakeholder representatives (currently Curtin University, Industry, teachers and professional development providers).

Longevity of program

The program will be implemented in a limited number of schools for the first time in 2018. It is expected to be available for schools during the life of the Sustainable Development Goals (i.e. until 2030). During 2029, it is anticipated that all member nations will reach agreement on progress made towards the Goals and the next 'generation' of Goals (as occurred in 2015 when the Millennium Development Goals expired).
The program is endorsed by the WA School Curriculum and Standards Authority from 2018 to 2022.

Additional Information

The four units of the **UNAA Global Goals and Sustainability Program** have been recognized by Curtin University through its Learning Futures Network. It is a Curtin University recognized ACES (Achievement Centred Engagement for Students) Program. In his email confirming this recognition Professor David Gibson commented:

"I am pleased to say that the UNAAWA is the first formally recognized program of the Learning Futures Network. Your application shows the care and depth to which you and your colleagues approach creating learning opportunities for youth.

We are here confirming that students who take part in your program of offerings seem poised to produce strong evidence of knowledge and skills that are highly valued by Curtin University.

We will list the following title as a recognized ACES program:

**UNAA GLOBAL CITIZENSHIP AND SUSTAINABILITY PROGRAM**

Students completing one or more units will also be eligible to apply for Curtin SHAPE Scholarships.

Professor David Gibson
Director | Learning Futures | Curtin Learning and Teaching
UNESCO Chair of Data Science in Higher Education Learning & Teaching

_Inspiring and supporting innovation, excellence and impact in learning and teaching_
UNAAWA GLOBAL CITIZENSHIP AND SUSTAINABILITY PROGRAM

The UNAAWA Global Citizenship and Sustainability program is based on the UNESCO model in *Global Citizenship Education: Topics and Learning Objectives* (UNESCO, 2015, p15). This model underpins design of the Global Competence test in the Program for International Assessment (PISA).

**Learning and Teaching Program**

1. The program is designed for Year 10 to 12 students with diversity of dominant learning styles.
2. Based on GCEd model (above) and UN 2030 Sustainable Development Goals (SDGs below)

3. Four units with varying contexts: Unit 1: Local community; Unit 2: Australian Regional; Unit 3: Indo-Pacific Regional; Unit 4: Global

4. Initial phase of learning in each unit focused on SDGs; human and natural systems in the unit context; system interconnections local to global; project management and enterprise skills.

5. Second phase of learning involves students working in teams (ideally four students) and applying a design thinking model to SDGs and context, investigating possible solutions, devising and implementing a project management plan to create a solution.

6. Third phase of learning involves students reflecting on, preparing for and presenting their team solution.
Your task at the Student Parliament Workshop is to design a 'Mission Possible' - that either extends or adds value to what your school already does. The Mission contributes to one or more of the Global Goals. During the Workshop, you will: Collaborate with others to design your Mission, Contribute your ideas and be open to the ideas of others, Empathise by trying to think from the perspective of people most affected by the Goal(s) you are addressing, Provide feedback and welcome it from others to refine your ideas, Apply the Design Thinking process (see below).

How might we ......
persuade others to reduce use of plastics in our school?
convince our community that the Global Goals are important?
encourage others to reduce their carbon footprint?
raise funds to support disadvantaged communities?

DESIGN THINKING PROCESS

1. Empathise and Define
Explore selected goals and consider the perspectives of people most affected.

2. Ideate
Brainstorm ideas – no judgements. Vote on best idea to develop – the team's BIG IDEA

3. Prototype
Map out (unpack) BIG IDEA by drawing and writing to describe the Idea, the Problem it solves, the Impact it will have. Also develop the 'Mission' Plan – Why the BIG IDEA is important and how you will know it is having the intended impact. What you need to do to achieve it (3 to 5 key steps). Who needs to be involved and the tasks they will perform. How tasks will be done (resources needed). When tasks will be done (3 to 5 key milestones).

4. Test and Refine
Seek feedback from others not involved. Use to refine Prototype.

5. Pitch
Your team representative(s) has three minutes (not a second more) to inform the Student Parliament about your 'Mission Possible' and how it will make a difference. Collaborate to work out the three to five key messages (Takeaways) and how to best present them. Be prepared to 'Feed Back and Feed Forward' for other team Pitches. Be specific. What do you like? What could make it even better? What questions does this raise? What should happen next? What is needed to keep the idea moving?
Unit 1: Global Goals and the Local Community 60 hours

Learning and Teaching Program
The following learning objectives are drawn from Global Citizenship Education: Topics and Learning Objectives (UNESCO, 2015). Students learn in the context of applying the Global Goals to analysing needs and taking positive action for developing sustainability in the local community (the school community or neighbourhood or local government area). Students undertake a challenge-based, collaborative project (working in teams of three to five) to address an issue of concern. Challenge-based learning involves students defining a problem, developing and delivering a specific solution. Throughout the program students develop and apply the four General Capabilities: Critical and Creative Thinking, Intercultural Understanding, Ethical Understanding, Personal and Social Capability. This unit provides opportunities to incorporate the cross-curriculum priorities of Sustainability and Aboriginal and Torres Strait Islander histories and cultures.

Critically analyse global governance systems, structures and processes and assess implications for global citizenship
Global governance systems, structures and processes and the way that regulations, policies and decisions are made and applied at different levels.

Critically examine local, national and global issues, responsibilities and consequences of decision-making, examine and propose appropriate responses
Inquiry into major local issues and perspectives on these (gender, discrimination, human rights, development, peace and conflict, refugees, migration, environmental quality, youth unemployment).

Critically assess the ways in which power dynamics affect voice, influence, access to resources, decision-making and governance
Analysis of local community issues from the perspective of power dynamics (e.g. gender equality, disability, youth unemployment).

Critically examine ways in which different levels of identity interact and cultivate a sense of belonging to a common humanity
Personal and collective identities and memberships in local community context viewed through multiple lenses.

Critically assess connectedness between different groups
Rights and responsibilities of citizens and groups in the community.

Develop and apply values, attitudes and skills to manage and engage with diverse groups and perspectives
Values and attitudes of empathy and respect beyond own groups. Engaging in actions for social justice in the local community.

Develop and apply skills for effective civic engagement
Skills for effective political and social engagement (critical inquiry and research, assessing evidence, making reasoned arguments, planning and organising action, working collaboratively, reflecting on the potential consequences of actions, learning from successes and failures).

Critically assess issues of social justice and ethical responsibility and take action to challenge discrimination and inequality
Local issues that involve ethical questions. Demonstrating ethical and social responsibility.

Propose actions for, and become agents of, positive change
Contributing to the analysis and identification of needs and priorities that require action/change in local community. Exploring opportunities for social entrepreneurship. Actively participating in the creation of a vision, strategy and plan of action for positive change. Critically analysing the contributions and impact of the work of various actors. Inspiring, advocating for and engaging others to act. Practicing communication, negotiation and advocacy skills. Promoting positive societal behaviour.

Assessment Outline
Students demonstrate learning outcomes through three assessment types:
Knowledge and understanding (written report or test or oral presentation or visual presentation)
Team Project plan, implementation and review (written report or test or oral presentation or visual presentation)
Global competence (using digital portfolio – see illustrative example Attachment Two)
Unit 2: Global Goals and Australian Regions

60 hours

Learning and Teaching Program

The following learning objectives are drawn from Global Citizenship Education: Topics and Learning Objectives (UNESCO, 2015). Students learn in the context of applying the Global Goals to analysing needs and taking positive action for developing sustainability in an Australian regional community (e.g. Perth Eastern Metropolitan Region, Pilbara, Great Southern, Kimberley). Students undertake a challenge-based, collaborative project (working in teams of three to five) to address an issue of concern. Challenge-based learning involves students defining a problem, developing and delivering a specific solution. Throughout the program students develop and apply the four General Capabilities: Critical and Creative Thinking, Intercultural Understanding, Ethical Understanding, Personal and Social Capability. This unit provides opportunities to incorporate the cross-curriculum priorities of Sustainability and Aboriginal and Torres Strait Islander histories and cultures.

Critically analyse global governance systems, structures and processes and assess implications for global citizenship
How individuals and groups, including public/private sectors, engage in global governance structures and processes.

Critically examine local, national and global issues, responsibilities and consequences of decision-making, examine and propose appropriate responses
In-depth analysis of interconnected nature of issues (root causes, factors, agents, dimensions, international organisations, multinational corporations).

Critically assess the ways in which power dynamics affect voice, influence, access to resources, decision-making and governance
Factors facilitating or hindering citizenship and civic engagement (social and economic inequalities, political dynamics, power relations, marginalisation, discrimination, state, military/police power, social movements, trade unions).

Critically examine ways in which different levels of identity interact and cultivate a sense of belonging to a common humanity
Personal and collective identities and memberships in Australian regional context viewed through multiple lenses. Factors that lead to successful civic engagement (personal and collective interests, attitudes, values and skills).

Critically assess connectedness between different groups and communities
Concept of legitimacy, rule of law, due process and justice.

Develop and apply values, attitudes and skills to manage and engage with diverse groups and perspectives
Concepts of peace, consensus building and non-violence. Engaging in actions for social justice in national community.

Develop and apply skills for effective civic engagement
Skills for effective political and social engagement (critical inquiry and research, assessing evidence, making reasoned arguments, planning and organising action, working collaboratively, reflecting on the potential consequences of actions, learning from successes and failures). Selecting the most appropriate way for obtaining information, expressing opinions and taking action.

Critically assess issues of social justice and ethical responsibility and take action to challenge discrimination and inequality
National issues that involve ethical questions (youth unemployment, equity, fighting crime and corruption, indigenous rights). How different perspectives on social justice and ethical responsibility influence political decision-making and civic engagement (political movements, voluntary and community work, involvement in charitable or religious groups) or complicate the resolution of national issues.

Propose actions for, and become agents of, positive change
Contributing to the analysis and identification of national needs and priorities that require action/change. Exploring opportunities for social entrepreneurship. Actively participating in the creation of a vision, strategy and plan of action for positive change. Critically analysing the contributions and impact of the work of various actors. Inspiring, advocating for and engaging others to act. Practicing communication, negotiation and advocacy skills. Promoting positive societal behaviour.

Assessment Outline

Students demonstrate learning outcomes through three assessment types:
Knowledge and understanding (written report or test or oral presentation or visual presentation)
Team Project Plan, Implementation and Review (written report or test or oral presentation or visual presentation)
Global competence (using digital portfolio – see illustrative example Attachment Two)
Unit 3: Global Goals and the Indo-Pacific

60 hours

Learning and Teaching Program

The following learning objectives are drawn from Global Citizenship Education: Topics and Learning Objectives (UNESCO, 2015). Students learn in the context of applying the Global Goals to analysing needs and taking positive action for developing sustainability in the Indo-Pacific regional community (e.g. the Middle East, Africa, East Asia). Students undertake a challenge-based collaborative project (working in teams of three to five) to address an issue of concern. Challenge-based learning involves students defining a problem, developing and delivering a specific solution. This unit provides opportunities to incorporate the Cross-curriculum Priorities of Sustainability, Australia’s Engagement with Asia and Aboriginal and Torres Strait Islander histories and cultures.

Critically analyse global governance systems, structures and processes and assess implications for global citizenship

Critical reflection on what it means to be a member of the global community and how to respond to common problems and issues [roles, global connections, interconnectedness, solidarity and implications in everyday life].

Critically examine local, national and global issues, responsibilities and consequences of decision-making, examine and propose appropriate responses

Evaluation of how global governance structures and processes respond to issues and the effectiveness and appropriateness of responses (mediation, arbitration, sanctions, alliances).

Critically assess the ways in which power dynamics affect voice, influence, access to resources, decision-making and governance

Analysis of Indo-Pacific regional issues from the perspective of power dynamics (e.g. gender equality, disability, youth unemployment).

Critically examine ways in which different levels of identity interact and cultivate a sense of belonging to a common humanity

Personal and collective identities and memberships in Indo-Pacific context viewed through multiple lenses. Commitment to the promotion and protection of personal and collective well-being.

Critically assess connectedness between different groups, communities and countries

Promoting well-being in the community and understanding threats to and potential for well-being.

Develop and apply values, attitudes and skills to manage and engage with diverse groups and perspectives

Mutual interdependence and challenges of living in diverse societies and cultures (power inequalities, economic disparities, conflict, discrimination, stereotypes). Diverse and complex perspectives. Engaging in actions for social justice in the Indo-Pacific region.

Develop and apply skills for effective civic engagement

Skills for effective political and social engagement (critical inquiry and research, assessing evidence, making reasoned arguments, planning and organising action, working collaboratively, reflecting on the potential consequences of actions, learning from successes and failures). Analysing factors that can strengthen or limit civic engagement.

Critically assess issues of social justice and ethical responsibility and take action to challenge discrimination and inequality

International issues that involve ethical questions (terrorism, gender equity, modern slavery, indigenous rights). Challenges for governance of different and conflicting views of fairness and social justice.

Propose actions for, and become agents of, positive change

Contributing to the analysis and identification of international needs and priorities that require action/change. Exploring opportunities for social entrepreneurship. Actively participating in the creation of a vision, strategy and plan of action for positive change. Critically analysing the contributions and impact of the work of various actors. Inspiring, advocating for and engaging others to act. Practicing communication, negotiation and advocacy skills. Promoting positive societal behaviour.

Assessment Outline

Students demonstrate learning outcomes through three assessment types:

Knowledge and understanding (written report or test or oral presentation or visual presentation)

Team Project Plan, Implementation and Review (written report or test or oral presentation or visual presentation)

Global competence (using digital portfolio – see illustrative example Attachment Two)
Learning and Teaching Program

The following learning objectives are drawn from Global Citizenship Education: Topics and Learning Objectives (UNESCO, 2015). Students learn in the context of applying the Global Goals to analysing needs and taking positive action for developing sustainability in the global community. Students undertake a challenge-based, collaborative project (working in teams of three to five) to address an issue of concern. Challenge-based learning involves students defining a problem, developing and delivering a specific solution. Throughout the program students develop and apply the four General Capabilities: Critical and Creative Thinking, Intercultural Understanding, Ethical Understanding, Personal and Social Capability. This unit provides opportunities to incorporate the Cross-curriculum Priorities of Sustainability and Australia's Engagement with Asia.

Critically analyse global governance systems, structures and processes and assess implications for global citizenship
Inequalities between nation states and their implications for exercising rights and obligations in global governance.

Critically examine local, national and global issues, responsibilities and consequences of decision-making, examine and propose appropriate responses
Critical reflection on the influence on global issues and interdependence of history, geography, politics, economics, culture or other factors.

Critically assess the ways in which power dynamics affect voice, influence, access to resources, decision-making and governance
Critical examination of different viewpoints, opponent or minority views and critiques, including assessing the role of mass media and social media in global debates and on global citizenship.

Critically examine ways in which different levels of identity interact and cultivate a sense of belonging to a common humanity
Collective identity, shared values and implications for creating a global civic culture. Complex and diverse perspectives and notions of civic identities and membership on global issues or events through cultural, economic and political examples (ethnic or religious minorities, refugees, historical legacies of slavery, migration).

Critically assess connectedness between different groups, communities and countries
Rights and responsibilities of citizens and groups in the international community. Promoting and defending human rights for all.

Develop and apply values, attitudes and skills to manage and engage with diverse groups and perspectives
Actions by various organisations to bring positive change regarding global issues. Engaging in actions for social justice in the global community.

Develop and apply skills for effective civic engagement
Skills for effective political and social engagement (critical inquiry and research, assessing evidence, making reasoned arguments, planning and organising action, working collaboratively, reflecting on the potential consequences of actions, learning from successes and failures).

Critically assess issues of social justice and ethical responsibility and take action to challenge discrimination and inequality
Global issues that involve ethical questions (nuclear power and weapons, climate change, indigenous rights, business practices). Challenging injustice and inequalities.

Propose actions for, and become agents of, positive change
Contributing to the analysis and identification of needs and priorities that require action/change in the global community. Exploring opportunities for social entrepreneurship. Actively participating in the creation of a vision, strategy and plan of action for positive change. Critically analysing the contributions and impact of the work of various actors. Inspiring, advocating for and engaging others to act. Practicing communication, negotiation and advocacy skills. Promoting positive societal behaviour.

Assessment Outline

Students demonstrate learning outcomes through three assessment types:
Knowledge and understanding (written report or test or oral presentation or visual presentation)
Team Project Plan, Implementation and Review (written report or test or oral presentation or visual presentation)
Global competence (using digital portfolio – see illustrative example Attachment Two)
Global Citizen Skills 'Passport' – Secondary Teachers' Notes
A resource developed for UNAAWA Global Citizenship Schools by Rees Barrett, 2017

- The Global Citizen Skills Passport is a digital portfolio. Its purpose is to provide a framework for students to design projects implementing one or more of the UN 2030 Sustainable Development Goals (also known as Global Goals for Sustainable Development). Each project (termed a 'Mission' - from the WFUNA1 Mission Possible program) may extend over one to two years and is ideal for promoting integrated, cross-curriculum, extension, collaborative, community service learning.

- The framework targets four of the WA Curriculum General Capabilities (based on UNESCO Global Citizenship Education Key Learner Attributes and PISA Global Competence) – Critical and Creative Thinking, Personal and Social Capability, Intercultural Understanding and Ethical Understanding.

- The framework integrates progressive development of the above four General Capabilities through four levels (Levels 3 to 6 described in the WA Curriculum Learning Continuum for each).

- As a general guideline, each of the four 'Mission' levels encompasses two years of learning (e.g. Level 3 Bronze Mission = Lower Primary; Level 4 Silver Mission = Upper Primary; Level 5 Gold Mission = Lower Secondary; Level 6 = Platinum Mission Upper Secondary). Differentiation of the four Missions is through increasing complexity and level of difficulty of the project (e.g. number of SDGs involved, depth of analysis and reflection required to demonstrate progressive development of General Capabilities).

- Students work in teams as they plan and undertake their Sustainable Development Project; they integrate and apply learning from across the school curriculum; they take responsibility for monitoring and gathering evidence of their demonstration for each element of the three General Capabilities; they seek teacher verification of their evidence.

### 2030 Global Goals for Sustainable Development 'Mission' Framework

1. Select at least one of the UN 2030 Sustainable Development Goals.
2. Investigate the needs of people in the local community and a community in another country related to the selected Goal(s).
3. Design a project that will help address these needs.
4. Implement and reflect on the project.

---

1 World Federation of United Nations Associations
Global Citizen Skills 'Passport' – Students' Notes

This Skills 'Passport' is presented to you as a Global Citizen in training. You can use it to record your learning journey as you plan and carry out projects designed to make a difference to your own community and those in other parts of the world. These projects are called Missions.

All 193 members of the United Nations, including Australia, have committed to a set of 17 Global Goals (called the 2030 Sustainable Development Goals). These will help to build a more peaceful and fairer world for all of its citizens. You can find out more about these goals through these webpages:

http://worldslargestlesson.globalgoals.org/
http://www.wfuna.org/mission-possible
http://www.wfuna.org/wfuna-70-global-citizenship-challenge

Your Mission is to be part of a team of students to create and implement a project in your school community using the following five steps:

2030 Global Goals for Sustainable Development Mission Cycle
1. Investigate the needs of people in the local community and a community in another country related to one or more of the UN 2030 Sustainable Development Goals.
2. Act by designing and carrying out a project that will help address these needs.
3. Reflect on the progress and impact of your project - along the way and when it is completed. Do this by analysing (looking at the parts) and synthesising (looking at the whole) of your project.
4. Share your learning by involving and reporting to others your school and community.
5. Sustain by thinking about ways to expand your project, develop a new project, or mentor others to become involved.

The WFUNA² Mission Possible Program Cycle, being used by students in other countries, is the inspiration for this approach.

² World Federation of United Nations Associations
As the Mission proceeds use the 'continua' provided for Critical and Creative Thinking (CCT), Personal and Social Capability, Intercultural Understanding (ICU) and Ethical Understanding (EU) to plan and record your learning journey. The table below is a guide on how to link elements of these capabilities with the Mission stages.

**Planning** – check the 'continua' to learn about things to do and think about as you plan your project. If you don't fully understand the words used in each 'map' ask your teachers for help. Remember these 'maps' apply to your classroom learning in many subjects.

**Reflecting** – use the 'continua' as a journal to record and link evidence of your journey. Built up over time, the journal becomes an important record. Link evidence like photos, written feedback, documents. Ask your teacher to verify your journal and linked evidence along the way. Develop your personal icon to do this.

**INTERCULTURAL UNDERSTANDING**

<p>| <strong>ICU 1 Investigate culture and cultural identity</strong> | Analyse how membership of local, regional, national and international groups shapes identities including their own |
| <strong>ICU 2 Explore and compare cultural knowledge, beliefs and practices</strong> | Critically analyse the complex and dynamic nature of knowledge, beliefs and practices in a wide range of contexts over time |
| <strong>ICU 3 Develop respect for cultural diversity</strong> | Understand the importance of mutual respect in promoting cultural exchange and collaboration in an interconnected world |
| <strong>ICU 4 Communicate across cultures</strong> | Analyse the complex relationship between language, thought and context to understand and enhance communication |
| <strong>ICU 5 Consider and develop multiple perspectives</strong> | Present a balanced view on issues where conflicting views cannot easily be resolved |
| <strong>ICU 6 Empathise with others</strong> | Recognise the effect that empathising with others has on their own feelings, motivations and actions |
| <strong>ICU 7 Reflect on intercultural experiences</strong> | Reflect critically on the effect of intercultural experiences on their own attitudes and beliefs and those of others |
| <strong>ICU 8 Challenge stereotypes and prejudices</strong> | Critique the use of stereotypes and prejudices in texts and issues concerning specific cultural groups at national, regional and global levels |
| <strong>ICU 9 Mediate cultural difference</strong> | Recognise the challenges and benefits of living and working in a culturally diverse society and the role that cultural mediation plays |</p>
