

# Global Perspectives Series

## Health and the SDGs 2030

RCE GWS is looking for interested RCE Global Community Panelists to join an online discussion with Western Sydney University's first year Bachelor of Health Science students. These students will be a cohort of 30 undergraduates undertaking the unit "Professional Pathways" before majoring in Health Promotion, Health Service Management, Therapeutic Health or Public Health. The aim is for the students to gain a global perspective on health and the SDGs. We are looking for RCE Health Practitioners and/or experts who would like to join a discussion board to connect virtually with our students on this issue.

**When:** Monday 17<sup>th</sup> April to Friday 21<sup>st</sup> April 2017  
**How:** Via a closed Facebook Group  
**Time Required:** A daily FB post including: self introduction; a post on critical issues in Region/Country for Health and ESD; a post on future challenges ; answering questions.

**The discussion does not need to be in real time so we are hoping to get global representation from each region. Please contact RCE GWS Jen Dollin on [j.dollin@westernsydney.edu.au](mailto:j.dollin@westernsydney.edu.au) if you are interested.**
